Earth Still Annette Leddy

Playful and slyly original, *Earth Still* tells the story of Patricia, a museum curator and the mother of a young son, who falls for a new neighbor, Rennie, in the aftermath of an alien spaceship's unexplained landing in present day Los Angeles. The presence of the ship, along with the apparent absence of a pilot, precipitates a social crisis, while Patricia's affair with the mysterious Rennie creates its own tensions. Referencing art house film directors Chris Marker and Jean-Luc Godard, Italian Futurist writer F.T. Marinetti, and classic science fiction movies, *Earth Still* is a transfiguring love story, a meditation on the interrelationship of science fiction and visual art, and a riveting fantasy about our obsession with aliens.
