## **Gender and Timebound Commandments in Judaism** Elizabeth Shanks Alexander

The rule that exempts women from rituals that need to be performed at specific times (so-called timebound, positive commandments) has served for centuries to stabilize Jewish gender. It has provided a rationale for women's centrality at home and their absence from the synagogue. Departing from dominant popular and scholarly views, Elizabeth Shanks Alexander argues that the rule was not conceived to structure women's religious lives, but rather became a tool for social engineering only after it underwent shifts in meaning during its transmission. Alexander narrates the rule's complicated history, establishing the purposes for which it was initially formulated and the shifts in interpretation that led to its being perceived as a key marker of Jewish gender. At the end of her study, Alexander points to women's exemption from particular rituals (Shema, tefillin, and Torah study), which, she argues, are better places to look for insight into rabbinic gender.
