## Allison-Engined P-51 Mustang (Air Vanguard) Martyn Chorlton

North American Aviation's rapid and original design development of the P-51 resulted in success versus German and Japanese planes in World War II.

Not enough credit is given to Allison-engined variants of one of the world's most famous fighters. We now associate the name "Mustang" with the pretty bubble-canopied fighters which now grace our skies as war birds at Airshows around the world today. There is no doubt that the Merlin engine elevated the Mustang's performance from just being "very good" to "exceptional" and this, in many people's eyes, peaked with the P-51B and P-51C, not the more familiar and most produced version - the P-51D - which comprises the majority seen today.

From its inception in early 1940, the development of the fighter, which culminated in the prototype NA-73X launched in October, can only be described as rapid. Before the aircraft had even left the drawing board, the RAF had already placed an order for 320 units, such was the confidence in the design and need for a fighter at the time; from preliminary design to maiden flight had taken just 127 days!

By early January 1942, the Mustang was in service with the RAF, flying low-level armed reconnaissance operations over Northern France. This was to be the Mustang's hunting ground all the way up to D-Day and beyond. It had proved to be a highly capable aircraft in this role. While supporting Operation Jubilee over Dieppe, Mustangs were used in a more aggressive capacity for the first time and its first enemy kill was claimed - ironically, the pilot was an American volunteer! The RAF's Allison-engined Mustangs continued to prove their worth from late 1943, flying endless reconnaissance sorties in preparation for the Normandy invasion, and continuing to fly as the Allies slowly pushed eastwards towards Berlin. This was a remarkable service length and, despite later Merlin variants arriving in-theatre, the Mustang I, Ia and II served on the front lines until late 1944.

In American hands the Mustang entered service as a dive-bomber designated as the A-36 Apache/Invader. From late 1942 onwards, this type served with distinction in North Africa, both in the ground-attack role and in air-to-air combat, and would do so in the Far East as well. The complete fighter variant was the P-51A which, along with the A-36, served in North Africa and the Far East, excelling in Burma as part of LtCol P. Cochrane's 1st Air Command Group supporting the Chindits. Like their RAF colleagues, the Americans flew the type in the low-level photographic role, designated as the F-6A and F-6B when it continued to serve with the 9th Air Force until the war's end and beyond.

### **From reader reviews:**

#### **Melissa Conner:**

Often the book Allison-Engined P-51 Mustang (Air Vanguard) has a lot details on it. So when you check out this book you can get a lot of profit. The book was authored by the very famous author. Tom makes some research previous to write this book. This book very easy to read you may get the point easily after reading this article book.

#### **Stephanie Dillard:**

People live in this new moment of lifestyle always try and must have the spare time or they will get great deal of stress from both lifestyle and work. So , if we ask do people have free time, we will say absolutely of course. People is human not just a robot. Then we question again, what kind of activity have you got when the spare time coming to an individual of course your answer will unlimited right. Then do you ever try this one, reading publications. It can be your alternative in spending your spare time, the book you have read is Allison-Engined P-51 Mustang (Air Vanguard).

#### **Raymond Littlefield:**

Do you have something that you enjoy such as book? The e-book lovers usually prefer to decide on book like comic, quick story and the biggest some may be novel. Now, why not striving Allison-Engined P-51 Mustang (Air Vanguard) that give your pleasure preference will be satisfied simply by reading this book. Reading routine all over the world can be said as the opportunity for people to know world far better then how they react in the direction of the world. It can't be explained constantly that reading addiction only for the geeky man but for all of you who wants to possibly be success person. So , for every you who want to start reading through as your good habit, you can pick Allison-Engined P-51 Mustang (Air Vanguard) become your current starter.

#### **Carl Melton:**

Beside this specific Allison-Engined P-51 Mustang (Air Vanguard) in your phone, it could give you a way to get closer to the new knowledge or details. The information and the knowledge you might got here is fresh in the oven so don't always be worry if you feel like an older people live in narrow village. It is good thing to have Allison-Engined P-51 Mustang (Air Vanguard) because this book offers for you readable information. Do you occasionally have book but you rarely get what it's all about. Oh come on, that won't happen if you have this with your hand. The Enjoyable arrangement here cannot be questionable, just like treasuring beautiful island. Use you still want to miss the item? Find this book and read it from now!
