*This is Book 1 of 2 in the Version 2.0 series, and can be read as a stand alone novel.*

Zach Johnston had it all. A billion dollar software empire, a different girl in his bed every night, and a business partner who shared his vision of market domination, one gaming console at a time.

No one can stay on top forever, and calling what their biggest competitor did to them a hostile takeover doesn't do it justice. *No-lube violation* is more accurate.

Even worse, the only woman he's never been able to forget is back in his life. Rae Nielson is filling his business partner's head with delusions of starting over and haunting Zach's most vivid fantasies.

The safe choice is to deny his interest in Rae and her plan. But Zach didn't make it big the first time around by playing it safe.

**Warning:** This book contains a scorching second chance for a billionaire CEO and his high school sweetheart, and scores of randomly geeky gaming references.

**Publisher's Note:** This book was previously released as *Holding Her Close* (Bits & Bytes Book 0). It has been revised and edited for this re-release.
