## Legumes in the Omic Era

Legumes in the Omic Era provides a timely review of recent advances in legume genomics research and application. In this post-genomic era enormous amount of biological information is available which could be of huge potential use for crop improvement applications. This aspect of genomics assisted plant breeding is focused throughout the book for all the important grain legume crops. Role of functional genomics and importance of bioinformatics tools in present day genomics and molecular breeding research is also discussed in detail. Use of molecular tools for nutritional fortification of grain legume is briefly presented. A chapter also been contributed on fungal disease resistance to elucidate potential application of genomic tools in molecular breeding of grain legume species. The book contains fifteen chapters contributed by 50 scientists from different countries who are actively involved in analyzing and improving particular legume genome. This book will serve as reference resource to legumes researchers for use of genome information in improvement of major legume crops.

Dr Sanjeev Gupta is Principal Scientist/Project Coordinator-All India Coordinated Research Project on *Vigna* Crops at Indian Institute of Pulses Research (IIPR), Kanpur. He has more than two decades of research experience in grain legume breeding and developed a number of high yielding cultivars in grain legumes. He is authored numerous research papers published in peer-reviewed journals and edited several books in plant breeding aspects. He was the Organizing Secretary of the International Grain Legume Conference, 2009 held in the Indian Institute of Pulses Research, Kanpur, India. He has travelled across the continents to present his research several times. He is recipient of several awards for his research and literary contributions Dr. Nagasamy Nadarajan is the Director of the Indian Institute of Pulses Research (IIPR), Kanpur. He has more than three decades of teaching and research experience and developed more than fifteen legume and cereal cultivars. He has to his credits more than 200 peer-reviewed research publications. He has guided several graduate students for Masters and Doctoral degrees in food legume breeding and genetics research. He has authored a book in biometrics which is one of the most popular books among the agriculture graduate students in India. He is the recipient of three international and six national awards and honours for his outstanding contributions Mr. Debjyoti Sen Gupta is the ICAR International Fellow and Ph.D. candidate at North Dakota State University (NDSU), Fargo, USA. Recently, he visited Department of Crop and Soil Sciences, Washington State University, Pullman, USA for high throughput genotyping work. Before joining at NDSU he was serving as the Scientist in the Indian Institute of Pulses Research (IIPR). He has authored several research articles, review articles and book chapters in the peer-reviewed journals and books from reputed publishers like Springer, CABI etc. He is recipient of several fellowships like CSIR-JRF, New Delhi; ICAR-JRF, New Delhi throughout his graduate study programs.

### **From reader reviews:**

#### **Benjamin Ward:**

Book is usually written, printed, or created for everything. You can know everything you want by a publication. Book has a different type. As we know that book is important factor to bring us around the world. Beside that you can your reading skill was fluently. A book Legumes in the Omic Era will make you to end up being smarter. You can feel much more confidence if you can know about every little thing. But some of you think that will open or reading the book make you bored. It isn't make you fun. Why they are often thought like that? Have you searching for best book or acceptable book with you?

#### **Jacqueline Gore:**

In this 21st millennium, people become competitive in every way. By being competitive now, people have do something to make these people survives, being in the middle of the particular crowded place and notice by surrounding. One thing that oftentimes many people have underestimated the idea for a while is reading. Yeah, by reading a e-book your ability to survive raise then having chance to endure than other is high. In your case who want to start reading a new book, we give you this specific Legumes in the Omic Era book as nice and daily reading guide. Why, because this book is usually more than just a book.

#### **Estelle Hicks:**

In this age globalization it is important to someone to obtain information. The information will make anyone to understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of sources to get information example: internet, newspaper, book, and soon. You will see that now, a lot of publisher that print many kinds of book. The actual book that recommended for you is Legumes in the Omic Era this e-book consist a lot of the information from the condition of this world now. This particular book was represented how does the world has grown up. The vocabulary styles that writer value to explain it is easy to understand. The writer made some investigation when he makes this book. That's why this book suited all of you.

#### **Richelle Johnson:**

Beside this kind of Legumes in the Omic Era in your phone, it might give you a way to get closer to the new knowledge or details. The information and the knowledge you are going to got here is fresh in the oven so don't possibly be worry if you feel like an aged people live in narrow small town. It is good thing to have Legumes in the Omic Era because this book offers to you readable information. Do you sometimes have book but you seldom get what it's exactly about. Oh come on, that will not happen if you have this with your hand. The Enjoyable agreement here cannot be questionable, like treasuring beautiful island. Techniques you still want to miss it? Find this book and also read it from currently!
