A breathtaking novel of primitive England and the astonishing birth of the miracle called Stonehenge

In a time before recorded history, on an island that many centuries later would come to be known as Britain, Moloquin, the Unwanted One, dreams of a pathway to the heavens. Cast out as a child, he survives by his wits alone on the fringes of tribal society and grows into manhood driven by one powerful and unshakable ambition: to build a link between the earthly and the spiritual worlds through the raising of an impossible structure. But to accomplish such a momentous feat in this primitive age of stone will not only require superhuman strength, it will entail unraveling the very fabric of life. Still, Moloquin will not be deterred in his quest, and he will stand courageously against all enemies, court untold disaster, sacrifice what he must, and remake his entire world to see his great vision gloriously realized.

One of today's foremost historical novelists, Cecelia Holland explores the strange and enduring mystery of Stonehenge, one of the true wonders of the ancient and modern world. A breathtaking speculation, *Pillar of the Sky* is an unforgettable tale brimming with action, colorful characters, vivid detail, intelligence, and wonder, while presenting a possible history of the man-made miracle on Salisbury Plain that confounds scientists, scholars, and archaeologists to this day.
