Nivaldo J. Tro

Chemistry: A Molecular Approach, Books a la Carte Edition (4th Edition) Nivaldo J. Tro

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

For courses in Chemistry.

Building 21st Century Data Analysis and Problem-Solving Skills in Modern Chemistry

The **Fourth Edition** of Niva Tro's *Chemistry: A Molecular Approach* reinforces development of 21st century skills including data interpretation and analysis, problem solving and quantitative reasoning, applying conceptual understanding to new situations and peer-to-peer collaboration.

Nivaldo Tro presents chemistry visually through multi-level images—macroscopic, molecular, and symbolic representations—helping readers see the connections between the world they see around them (macroscopic), the atoms and molecules that compose the world (molecular), and the formulas they write down on paper (symbolic). The benefits of Dr. Tro's problem-solving approach are reinforced through digital, Interactive Worked Examples that provide an office-hour type of environment and expanded coverage on the latest developments in chemistry. New Key Concept Videos explain difficult concepts while new end-of-chapter problems including Group Work questions and Data Interpretation and Analysis questions engage readers in applying their understanding of chemistry. The revision has been constructed to easily incorporate material to engage readers.

Also available with MasteringChemistry

MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging you before, during, and after class with powerful content. Instructors ensure you arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics™. You can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess your understanding and misconceptions.

Mastering brings learning full circle by continuously adapting to your learning and making learning more personal than ever—before, during, and after class.

Note: You are purchasing a standalone product; MasteringChemistry does not come packaged with this content. Students, if interested in purchasing this title with MasteringChemistry, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

From reader reviews:

Georgetta Watson:

What do you about book? It is not important to you? Or just adding material if you want something to explain what the ones you have problem? How about your time? Or are you busy individual? If you don't have spare time to accomplish others business, it is make you feel bored faster. And you have spare time? What did you do? Everybody has many questions above. They should answer that question mainly because just their can do that will. It said that about e-book. Book is familiar on every person. Yes, it is proper. Because start from on guardería until university need this specific Chemistry: A Molecular Approach, Books a la Carte Edition (4th Edition) to read.

Julie Bell:

Here thing why this Chemistry: A Molecular Approach, Books a la Carte Edition (4th Edition) are different and reliable to be yours. First of all reading a book is good but it depends in the content from it which is the content is as scrumptious as food or not. Chemistry: A Molecular Approach, Books a la Carte Edition (4th Edition) giving you information deeper and in different ways, you can find any publication out there but there is no book that similar with Chemistry: A Molecular Approach, Books a la Carte Edition (4th Edition). It gives you thrill looking at journey, its open up your current eyes about the thing that happened in the world which is possibly can be happened around you. You can easily bring everywhere like in playground, café, or even in your method home by train. For anyone who is having difficulties in bringing the paper book maybe the form of Chemistry: A Molecular Approach, Books a la Carte Edition (4th Edition) in e-book can be your substitute.

Sally McGarvey:

Spent a free time and energy to be fun activity to accomplish! A lot of people spent their sparettime with their family, or their own friends. Usually they doing activity like watching television, gonna beach, or picnic inside the park. They actually doing ditto every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? Might be reading a book could be option to fill your cost-free time/ holiday. The first thing you will ask may be what kinds of book that you should read. If you want to test look for book, may be the book untitled Chemistry: A Molecular Approach, Books a la Carte Edition (4th Edition) can be fine book to read. May be it might be best activity to you.

Pedro Murray:

As a scholar exactly feel bored in order to reading. If their teacher expected them to go to the library or even make summary for some book, they are complained. Just little students that has reading's heart or real their passion. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that reading through is not important, boring in addition to can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for you. As we

know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Chemistry: A Molecular Approach, Books a la Carte Edition (4th Edition) can make you truly feel more interested to read.
