Which path will you choose when you find yourself torn between choices that lead to the crossroads of two worlds that co-exist but never collide?

Who will you choose when it comes to the mind or the heart?

Will you be able to find equilibrium?

Janet Kanet, an eighteen-year-old science student, who finds solace solely in theories and experiments, finds herself in an incomprehensible situation with a complete stranger. She experiences galactic adventures completely oblivious of concurrent betrayals and a past hysteria that haunts her future.

Will she be able to overcome her dilemma over the right life choices?

Will she be able to push away or embrace irrevocable emotions building inside her?

Neil, a handsome underworld prince completely engulfed in a realm of crime and gangsters, hesitatingly consents to an assignment he never wanted to undertake. He finds himself falling for sweet, delicate yet strong-willed Janet and discovers a few truths that change the whole equation. While they should be best kept hidden, they eventually come to light.

Will he be able to let go of the one person who shines like a star amidst the endless darkness of his life for her own good?

Will he be able to erase the criminal within himself for the person who matters the most and would go to any extent to save him from himself?

This story is a saga replete with **adventure, love, conflict, self-conviction**, drama, shattered relationships, and virile power brokers conspiring against each other in a nightmare world full of terror and mistrust.
