The Hidden Faces of the Grand Canyon ~ A Galactic Ascent Dominique Severina

#1 NEW RELEASE IN OUT-OF-BODY EXPERIENCES

Severina's book offers **a unique look at intriguing encounters in the Grand Canyon where past, presence and future seem to be one.** Time traveling from the future, Mia, a galactic archeologist dives into the *Hidden Faces of The Grand Canyon*. A cave discovered in 1909 is the doorway to our convoluted universe. Severina's book invites us as humans **to remember that we are part of something much bigger than we might think.** She takes us on a river of dreams transcending the time space continuum. As a raft would, she keeps us afloat by using any combination of time or soul travel, dreams and even a ride on a Crystalline Stellar Skull. Dominique Severina's intimate knowledge and vivid descriptions of the Grand Canyon are a result of multiple trips rafting the Colorado River. She has spent hours hiking and exploring concealed secondary ravines along the route. An archaeologist, caver, and healing arts practitioner, she has integrated her knowledge and research into this tale.
