Bruce Goldstein finally escaped the grip of his dad at the age of sixteen with no previous knowledge of the corrupt world awaiting him beyond the bullet proof windows and steel walls of his dad's home. Truth, suspense, torture and inevitable tragedies alter Bruce's chance of living a normal life thereafter. Bruce survives in the real world he never was able to experience, but whether or not he truly lived within the anarchy surrounding the corrupt post apocalyptic world is the question at hand. Bruce seems to be the only normal boy in a strange new town where everyone seems to treat him as if trying to blanket his eyes. After meeting Rose, her and Bruce reveal secrets to both of their pasts, which leads them into a terrible mess left behind by their parents. After Bruce uncovers why he is of such importance to the man who killed Bruce's mom and why he was kept hostage in his dad's home, he is left to fight a war he never could have imagined by staring into the dry cotton stalks flooding the field he used to stare at for years.
