Hegemony: the political and cultural dominance and authority exercised by one nation or group over others. About Islam the current 'official' version is that it is a benign religion of peace. It is moderate, tolerant and pluralistic. Islam has a moderate peaceful majority, which has been hijacked by 'Radical Islam', the violent minority. However, this 'official' version is simply not true. At its core the true nature of Islam is, was, and always will be, that Islam is a hegemonic inhumane tyrannical political ideology based upon hatred, having the sole purpose to annihilate all other civilisations using deceit, fear and violence. Islam's core is martial, expansionist, belligerent and imperialist. It directly threatens the cohesion and culture of any society that it infiltrates. Within Islam there is the core belief that Allah created the religion of Islam in a perfect form, it can neither be improved nor modified. In effect this creates a divine dictatorship directed by fixed religious imperatives all aimed at installing Islam into the position of absolute dominance, no matter what. This creates institutionalised discrimination — an extreme 'them and us' dynamic, between 'believers' (Muslims) and 'unbelievers' (the infidel, the kafir) — namely (but not only) the Judaeo-Christian West. Muslim believers believe they have a divine responsibility and right to subjugate infidel unbelievers by any means, in particular deceit, and especially conquest. Ultimately (apart from maybe the possibility of flight) this leaves everyone and anyone on the planet who falls under Islam's yoke one of three choices: Absolute submission to Islam. Slavery. Death. And, this includes 'moderate peaceful tolerant' Muslims. Anyone who does not follow to the exact letter Allah's imperatives — so exactly as He communicated them to his final messenger, the Prophet Mohammed, via the Angel Gabriel — is classed as an unbeliever, an infidel, a kafir. For a Muslim to say or do otherwise, makes her or him worse than the infidel, than the kafir, and this is heresy, punishable by death. There are now many books, films, articles, essays, news reports, social media posts and websites exactly about Islam's true nature, and the growing threat that Islam poses Western democracy, secularism and freedom. The vast majority of this readily available body-of-work is well referenced, factual, based upon accurate history, references contemporary events, employs critical logical thought and uses very little based upon opinion. The back-drop and foundation for this book is formed by this body-of-work — where anyone can find all the necessary references and resources to not only check this book's contents and propositions, but also to do more in depth research into the true purpose of Islam. The purpose of this book is not to rehash or re-present what already exists. More the aim is to summarise and present an overview in order to encourage, and provide a framework for, the reader to research the topic in depth, and having done this be able to form opinions based upon fact (not fiction or propaganda) and critical thought (not 'expert' opinion). The book also directs the reader to information sources and makes suggestions about what to do next, on how to be part of the process of preventing Islam attaining its long term objective — to subjugate and eventually annihilate all other civilisations.
