**Nursing Care Plans and Documentation: Transitional Patient and Family Centered Care** Lynda J. Carpenito

Designed to help students learn how to create nursing care plans and effectively document care, this practical book focuses on the nursing plans that are most important, ensuring that students learn what they need to know and that they can find the information they need easily without being distracted by irrelevant information. Packed with easy-to-understand information and focused on helping students develop critical reasoning skills, this respected text presents the most likely nursing diagnoses and collaborative problems with step-by-step guidance on nursing actions and rationales for interventions. More than 85 nursing care plans translate theory into clinical practice.

This exciting revision includes special risk consideration icons called “Clinical Alert (derived from the most recent IOM report) that integrate patient-specific considerations into each care plan. Other enhancements include a streamlined format for easier use; new care plans for maternity, pediatric, and mental health nursing.

NOTE: Replace this text with the Full Description. Do not forget to check the Release to Eloquence box in the upper right hand corner
