This review book is designed to help students prepare for Florida's revised College Level Academic Skills Test through a study of basic English language skills, essay writing, reading comprehension and mathematics. Its instructional information sample tests and analyses of options, and answers make it a valuable review and study aid for the CLAST as well as a valuable tool to anyone teaching or learning basic skills. All three authors served on the CLAST committee responsible for revising test specifications and test items enabling them to explain those changes in detail and to provide the most accurate and current information available about the October 1992 CLAST. Pre-tests and post-tests simulate the CLAST format and time limits, preparing students for success in the actual testing situation.
