Woody Allen Richard A. Blake

After setting out a few general guidelines for discussing theological issues in manifestly secular art forms, this study examines several Woody Allen films in turn, from the earlier comedies like *Bananas* and *Sleeper* to the later, more complex works like *Hannah and Her Sisters* and *Crimes and Misdemeanors*. Throughout his career, a clear line of development can be traced in his treatment of women and romance, of life and death, and of his awareness of a moral structure in the universe. Despite Allen's profane treatment of these topics and several others, his work from year to year shows a gradual transformation in his dealing with the sacred dimensions of his characters and their world. He wrestles with his Jewish cultural and religious heritage, but he can never escape it.
