Developmental Mathematics: Prealgebra, Elementary Algebra, and Intermediate Algebra Michael, III Sullivan, Katherine R. Struve, Janet Mazzarella

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book.

The **Sullivan/Struve/Mazzarella Algebra program** is designed to motivate students to “do the math”— at home or in the lab—and supports a variety of learning environments. The text is known for its two-column example format that provides annotations to the left of the algebra. These annotations explain what the authors are about to do in each step (instead of what was just done), just as an instructor would do.
