James Hong SAT Vocabulary Game James Hong

The second book in the SAT GAME series. This book uses multiple approaches to boost your vocabulary power and prepare for the SAT including:

- **Actual SAT Words, Collected and Selected** More than 25,000 words from actual SAT tests have been consolidated, analyzed, and categorized through years of research. The list was boiled down to only the most frequently appearing yet easy-to-confuse words that you must know in order to win in the SAT Game.
- **The Right Method for the Right Word** Unlike many other books, this book applies a 'know-your-enemy' strategy and introduces various 'traps' and 'curveballs' that you should look out for. Each chapter targets one category of such traps and prepares you specifically on how to avoid them strategically.
- **Mnemonic Devices and Etymological Explanations** Some words are best learned through using mnemonic devices or etymological hints. With clever, easy-to-memorize tips and sharp examples for each word, you will be able to tackle even the most daunting words with confidence.
- **Preparation for Synonyms & Sentence Completion Questions** Words that have similar or comparable meanings are highlighted through an interactive format. As you follow these chapters, you will automatically prepare yourself for synonym identification and sentence completion questions on the SAT.
