When the Gods Aren't Gods (The Theogony) (Volume 2) Chris Kennedy

Lieutenant Commander Shawn 'Calvin' Hobbs and his special forces platoon just returned from a three-month mission to the stars. The technology they brought back will help with the Earth's defense, but it won't be enough to hold off the alien menace headed their way. Although they made it back alive, they returned without any new allies or help in building the fleet necessary to ensure the Earth's survival. They've got to go back. "When the Gods Aren't Gods" is the second book in "The Theogony," a trilogy that has taken Lieutenant Commander Hobbs and his special forces platoon to the stars, where they have found out that there is much more to Earth's history than is written in the history books! What do you do when myths become reality, and nothing you have ever been taught about history turns out to be true? How do you find the truth when everything you know is a lie? What is there left to believe in, when even the gods aren't gods?
