Amateur Radio Electronics V10 Home Study Clive W. Humphris M0DXJ

Amateur Radio Electronics V10 Home Study is now published as a portable, learning, reference and revision guide. Radio enthusiasts, students, trainers and hobbyists can have their own low-cost portable version as an eBook, plus an interactive App for a tablet or smartphone, along with the existing hugely popular PC version software.

For easy reading, a comprehensive contents list of hundreds of topics will be found each with a graphic image and explanatory text and calculations act as a useful exam revision reminder or reference tool for professionals.

The accompanying app and software brings all these images to life by allowing the reader to input their own values which then updates the graphics. Both can be downloaded at no extra charge thereby providing an additional portable or computer based interactive learning resource as an easy and enjoyable way to study.

Unlock both the App and accompanying software with your eBook receipt. See Additional Notes at the back of the eBook for download details. All together a combined eBook, App and PC educational package at a tiny fraction of the previously published price.
