With over 24,000 copies in print, this bestselling book tells how the Paiutes survived in the harsh Nevada climate. Chronicling food-gathering methods, basket weaving, hunting, skinning, and working with rabbit skins, this book serves as an invaluable reference on early Paiute culture.

Any inquiring person who has worked with the Native Americans of the West will testify to the difficulties of obtaining the information he seeks. They are an old and proud and reserved race, and acceptance of outsiders is not freely given.

In her twenty years of painstaking work with the Northern Paiutes, Margaret Wheat earned that full measure of acceptance. She tells the story of the generation of Native Americans whose lives were changed forever by the arrival of pioneers and prospectors in 1849.
