Your looks, personality and lifestyle determine the value a man places on a woman and what kind of relationship he'll have with you - Sex, Romance or Commitment.

This book teaches women how to attract and keep the right man with your Looks, Personality and Lifestyle by understanding how men rank all types of women.

Men really cant wait to get a woman in bed but everything starts with how he looks at a woman's body. In a few seconds, a man can capture, with the accuracy of a fast lens, all the information he needs to make a decision about what he will do with the woman standing before him. A quick glance will reveal if you have the right package- the face, hips, breast, shape and allure. These are the physical things that will catch his attention but it won't keep it there too long.

A conversation with you will reveal your personality type, your level of openness to romance, desire, chemistry and sexual exploration. Your relationship status will be the next factor on his radar and after that line is crossed everything changes. When a man looks at a woman, only two things can happen- he walks away or he steps up to the plate.

This series of easy to read books is packed with insightful information from the minds of men and women but mostly men. Men are always looking at women and I mean we spend hours everyday looking at hundreds of different impressions of women at work, on the streets, in the gym, in magazines, blogs, TV, films, texts, Instagram, Snapchat, Facebook, Twitter, and therefore we have plenty of data. Every decision we make about sex, commitment, marriage, being faithful and sharing our life with you is based on the data we store. With this insightful information, a Woman can position herself to win and get all you desire in a man.
