Learn the math tested by the SAT Subject Tests-nothing more, nothing less. The *Acing* series understands that math problems on the SAT are very different from what you learn in school, and that test tricks for guessing do not actually prepare you for the exam.

- * Comprehensive: all the topics you need to know, and nothing you don't
- * Stand-alone resource: use this book to prepare for the Level 1 or Level 2 Subject Test in Math on your own
- * Clear and concise: each concept taught through the simple format of key term and illustration followed by example problem, without unnecessary verbiage
- * Reinforcement: 300+ practice problems (not including examples or practice tests), for more practice than other test prep books offer
- * Growth: complete explanations for every problem in the book, so you can learn from your mistakes

The book also includes four realistic practice tests each for Level 1 and Level 2 (a total of *eight* tests) to complete your training. NO gimmicks. *Acing* simply focuses on clear teaching and progress through practice.
