Sonar Signal Processing (Artech House Acoustics Library)

Richard O. Nielsen

Sonar Signal Processing (Artech House Acoustics Library) Richard O. Nielsen

This discussion of sonar signal processing bridges a number of related fields, including acoustic propagation in the medium, detection and estimation theory, filter theory, digital filtering, sensor array processing, spectral analysis, fast transforms and digital signal processing. The book begins with a discussion of the topics of analogue signalling conditioning, digital filtering, and the calculation of the discrete Fourier transform. Other topics discussed include analogue filters and analogue-to-digital conversion, finite impulse and infinite impulse response digital filters, and multirate processing techniques.

From reader reviews:

Gilbert Johnson:

Reading a reserve tends to be new life style within this era globalization. With examining you can get a lot of information that can give you benefit in your life. Along with book everyone in this world can certainly share their idea. Ebooks can also inspire a lot of people. A lot of author can inspire their particular reader with their story or even their experience. Not only the storyplot that share in the publications. But also they write about the knowledge about something that you need illustration. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors these days always try to improve their expertise in writing, they also doing some research before they write for their book. One of them is this Sonar Signal Processing (Artech House Acoustics Library).

Hal Clemens:

Reading a book to get new life style in this 12 months; every people loves to learn a book. When you learn a book you can get a lots of benefit. When you read publications, you can improve your knowledge, because book has a lot of information in it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your study, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, such us novel, comics, and soon. The Sonar Signal Processing (Artech House Acoustics Library) will give you new experience in reading through a book.

Richard Bennett:

Is it anyone who having spare time and then spend it whole day by watching television programs or just lying down on the bed? Do you need something new? This Sonar Signal Processing (Artech House Acoustics Library) can be the response, oh how comes? A fresh book you know. You are therefore out of date, spending your time by reading in this fresh era is common not a geek activity. So what these guides have than the others?

Sidney Robertson:

Reading a book make you to get more knowledge from the jawhorse. You can take knowledge and information from your book. Book is created or printed or illustrated from each source which filled update of news. With this modern era like right now, many ways to get information are available for anyone. From media social like newspaper, magazines, science guide, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Do you want to spend your spare time to open your book? Or just seeking the Sonar Signal Processing (Artech House Acoustics Library) when you essential it?
