Donald Trump claims that by "self-funding" his presidential campaign, he is the only candidate not in debt to special interests. **TRUMP TROPHY: The White House** dramatically explodes this central myth of his campaign. The book documents the many "special interests" which have their hooks in the Republican front-runner. It goes much further, though, by detailing how Trump has put himself into the position of being a likely target of blackmail and extortion. A jaw dropping, impossible-to-put-down read, **TRUMP TROPHY** would make for a nail-biting political thriller, normally the stuff of great fiction, but for the fact that every ugly revelation in this book has been thoroughly documented. Many believe Donald J. Trump is poised to become the greatest president in the history of the United States; others fear he'll be the greatest train wreck. This book praises his unsuspected strengths whilst warning of the potential downside. The adage "truth is stranger than fiction" takes on new meaning as readers will conclude after reading it. The world may soon be literally one election away from the person controlling history's most destructive nuclear arsenal, being himself controlled by blackmailers who know secrets about him so dark that the fate of every citizen, of not just the United States, but of the entire planet, hinges on the outcome of America's 2016 election.
