Ulysses is a modernist novel by Irish writer James Joyce. It was first serialised in parts in the American journal *The Little Review* from March 1918 to December 1920, and then published in its entirety by Sylvia Beach in February 1922, in Paris. It is considered to be one of the most important works of modernist literature, and has been called "a demonstration and summation of the entire movement". According to Declan Kiberd, "Before Joyce, no writer of fiction had so foregrounded the process of thinking." *Ulysses* chronicles the peripatetic appointments and encounters of Leopold Bloom in Dublin in the course of an ordinary day, 16 June 1904. The novel imitates registers of centuries of English literature and is highly allusive. This publication is an original edition. *Ulysses*' stream-of-consciousness technique, careful structuring, and experimental prose — full of puns, parodies, and allusions — as well as its rich characterisation and broad humour, made the book a highly regarded novel in the modernist pantheon.
